

Wentao Zhang

- E-mail: zhangwentao@outlook.com · Tel: (+86) 158-5060-7771
- Date of Birth: Nov. 1995 · Address: Nanjing, China

Education

Southeast University

2021/09 - 2025/09 (Expected)

Ph. D. in Electrical Engineering

Nanjing, Jiangsu, China

- Dissertation Title: “Multi-physics Analysis and Design of Flat Wire Winding PM machines in Electric Vehicles”

Southeast University

2018/09 - 2021/06

Master in Electrical Engineering

Nanjing, Jiangsu, China

- Dissertation Title: “Analysis and Design of High-Performance Wound-Excited Magnetic Field Modulation-based Brushless Machines”

Southeast University

2014/09 - 2018/06

B.Eng in Electrical Engineering

Nanjing, Jiangsu, China

- Dissertation Title: “Comparative Study of Control Systems for PM Machine in Electric Vehicles”

Research Experience

My research focuses on the multi-physics design, analysis and control of the high power/torque density electric machine system applied in electric vehicles (EVs), including the flat wire PM machines and wound field excited machines. Eighteen IEEE Transactions papers have been published and three more are under review. In general, my research can be divided into three parts.

The first part is the design methods for the high-performance electric machines in EVs, including the novel n-layer flat wire winding design and performance evaluation, DC winding induced voltage analysis and suppression for the wound excited electric machines and mechanism driven multi-objective optimization methods. **The second part is the advanced cooling system design and analysis for the electric machines in EVs**, both high resolution lumped parameter thermal model and the fluid-solid strong coupled oil cooling system are developed for the EV used electric machines. **The third part is the control and dynamic modeling for the electric machine system in EVs**, in which the control strategy, converter characteristics and the spatial harmonic electric machine model have been applied.

Research Publication

Awards

- 2024 2nd Prize in 11th Energy Equipment Innovative Design Competition for China Postgraduate
- 2023 **Wiscom System Scholarship**
- 2023 1st Prize Academic Scholarship
- 2023 CIEEC Best Paper Award
- 2023 **1st Prize in IEEE IAS CMD Thesis Contest (non-Ph. D)**
- 2022 Outstanding Master Degree Thesis in Jiangsu Province
- 2017 2nd Prize in Southeast University Smart Car Competition
